

Sun Chlorella Cream®

New Sun Chlorella Cream® is a luxurious facial moisturiser designed to promote skin that glows from the inside out. Once Japan's best kept beauty secret, Sun Chlorella Cream® is the world's first facial moisturiser to harness the unique power of chlorella - the natural green algae rich in vitamins and nutrients - to help maintain healthy skin from the inside out.

NATURAL BEAUTY, THE JAPANESE WAY

Sun Chlorella Cream® is **paraben-free** and has a pure aqua and natural chlorella base to keep skin hydrated and healthy. Formulated in Japan by some of the world's leading experts in chlorella, it is the very best in natural beauty for your skin.

REPAIR, RENEW, STRENGTHEN AND PROTECT

Packed with Chlorella Growth Factor, Sun Chlorella Cream® is rich in nucleic acids which are instrumental in rejuvenating the skin, helping to repair your skin's delicate surface by naturally stimulating cell renewal. Its high moisture-keeping ability makes your skin and helps your cells rejuvenate. It nourishes, moisturizes and protects the skin from the harsh elements.

Helpful for aged spots, wrinkles, pigmentation and dehydrated skin. The natural solution to skin radiance.

REJUV-A-WAFERS™

Superfood Supplement for Dogs & Cats

Cherish every moment. Nourish every day.™

Rejuv-A-Wafers™ is a daily supplement packed with beneficial antioxidants, vitamin C and vitamin A, plus minerals, protein, beta-carotene, chlorophyll and fibre that will help your pet to thrive.

The chlorella in Rejuv-A-Wafers™ is pulverized by DYNOMILL™, which makes the nutrients in Rejuv-A-Wafers™ more bio-available than other brands. Every wafer contains Chlorella Growth Factor (CGF) to help nourish, replenish, and rejuvenate your pet.

Our unique rejuvenating formula includes adaptogenic properties that reinforce the body's ability to react to stress, and lecithin to promote healthy skin and a shiny coat. Rejuv-A-Wafers™ also gives your pet the eye health supporting benefits of lutein. Chlorophyll, a natural detoxifier and fibre support a healthy tummy, with beneficial deodorizing properties for fresher breath and improved body odor.

Why give your beloved pets commercial pet treats that are loaded with artificial flavours and fillers when you can give Rejuv-A-Wafers™! Your pet will love the delicious, wholesome flavour.

Sun Anserine

Anserine is usually found in the muscles of many migratory fishes such as tuna and bonito. These fishes need to swim for long distances while maintaining a very high speed. Anserine is also found in the muscles of some birds. Sun Anserine is developed by extracting anserine from wild tunas and bonitos with 99% of purines eliminated (fish peptide), and combined with the energized healthy herb, eleuthero.

Research has found that Sun Anserine may have the following health benefits:

- **Lower uric acid level**
- **Remove Active oxygen**
- **Anti-inflammatory effect**
- **Anti-fatigue effect**
- **Lower blood pressure**

It has been said to be of help to people who suffer from Gout.

Established in 1969, Sun Chlorella Corp is the world's largest producer of Chlorella natural food supplements. Our manufacturing process is GMP certified and in accordance with the Japan Health Food & Nutrition Food Association. With 32 corporate offices located throughout Japan, U.S., Europe and Asia, the amazing health benefits of Sun Chlorella are experienced by millions of people all over the world.

"Health is not a gift but something each person is responsible for through his or her own daily effort." ~ Hideo Nakayama (founder)

**To all the people of this world who
hunger for improving their lives**

**To those who seek personal nutritional
excellence**

**To those who hunger to live at their
optimum level of health**

SUN CHLORELLA

Sun Chlorella A

Top Selling Brand of Chlorella in JAPAN & USA

Chlorella is a single cell fresh water green algae with more than 20 different vitamins and minerals and provides an abundance of naturally occurring Beta-Carotene (Pro-vitamin A). Containing 60% protein, and consisting of more than 20 free-form amino acids, it is one of the highest natural sources of DNA, RNA and Chlorophyll. Chlorella is natural, not a drug or a medicine, but is a pure, whole food.

There are many species of chlorella, but studies show *Chlorella pyrenoidosa* (the strain used in **Sun Chlorella A**) contains exceptionally high levels of a phytonutrient called Chlorella Growth Factor (CGF). CGF is produced by chlorella's rapid cellular reproduction: ie. 4 new cells every 20 to 24 hours. This nucleotide-peptide complex is vital for maintaining the health of intravital cells, enhancing RNA/DNA functions responsible for production of enzymes and energy at the cellular level, stimulating tissue repair and protecting cells against toxic substances.

Sun Chlorella A is a premium quality, natural whole food cultivated from the *Chlorella pyrenoidosa* strain. The powerful CGF in **Sun Chlorella A** may help to enhance your body's natural defense system activity, help to remove the multitude of impurities in your body, and renew cellular strength and integrity. Our unique and patented DYNO®-Mill technology succeeds in breaking down the cell walls by 95%, thereby solving the only remaining problem of tough cell walls that hindered digestion and absorption. CGF is not found in any other vitamin, mineral, herb, or food, it is only found in chlorella.

To those who seek nutritional excellence and a optimum healthy life, take **Sun Chlorella A** daily. Available in tablet and granule form.

**Grand Gold Award
2009 - 2012**

Monde Selection

Sun Chlorella Wakasa ~ The Elixir of Health

Sun Chlorella Wakasa is the pure and powerful liquid extract from the nucleus of the Chlorella plant.

Its rich concentration of nucleic acids, RNA and DNA not only gives one vitality, it can help support your body's defense system and assist in cellular health to an extent not found in any other food.

Wakasa Gold and **Wakasa Honey Plus** are tonics rich in CGF and they help your body build a strong foundation for healthy living. By combining **Wakasa** with **Sun Chlorella A**, you can get the entire range of nutrients to ensure your best health.

Sun Megami

Do you suffer from blinding headaches? Do your eyes get blurry or teary at the end of the day?

Sun Chlorella Megami is specially formulated with a blend of Astaxanthin, Crocetin, Beta-carotene and Eleuthero for healthy eyes. It offers protection against free radical damage, assists visual function and provides dietary support for ocular health.

Astaxanthin is a powerful antioxidant that is 10 times more capable than other carotenoids; it boosts the immune system and reduces inflammation of the eye. Astaxanthin also relieves eyestrain, increases blood circulation to the eye and has an antioxidant effect.

Crocetin (Gardenia) has an anti-inflammatory, analgesic effect, improves oxygen and blood circulation to the eye.

Beta-carotene (Dunaliella), a provitamin A compound, helps to prevent night blindness. It acts as an antioxidant, protects against harmful free radicals and slows the progression of cataracts and macular degeneration.

Eleuthero, being an adaptogen, has the ability to adapt itself to correct whatever is out of balance in the body. It improves eye sensitivity, possesses analgesic and antimicrobial actions.

Sun Chlorella Agaricus ~ The Natural Alternative

There are more than 50 thousand varieties of mushrooms in the world; of which the one most talked about today is Agaricus. Agaricus itself has more than 200 strains. **Sun Chlorella Agaricus** uses "Himematsutake Iwade Strain 101" (scientific name "Agaricus blazei Murill") mushroom which is grown in Brazil. The fruiting bodies in Agaricus blazei Murill

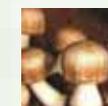

contain $\beta(1\rightarrow6)$ -D-glucan protein complexes and RNA-protein complexes, which help maintain health, and its mycelia section contain glucomannan. In addition, it is discovered to be rich in vitamins and minerals, much higher than Lingzhi, Reishi, Maitake and Shitake.

Why is Sun Chlorella Agaricus used as a Natural Alternative?

Sun Chlorella A, on its own, has benefited many people with a wide range of health problems. Amongst the many Agaricus products available in the market, only **Sun Chlorella Agaricus's world patented formula** contains Agaricus blazei, Chlorella Growth Factor **and** Mycelium which is optimum for building the body's defences against harmful radicals.

Sun Chlorella Agaricus attacks and destroys harmful body cells by improving the body's natural healing power, thereby boosting one's immune system. According to R&D studies on Agaricus blazei Murill as an Alternative Therapy, there are many Agaricus products which does not even achieve 30% immunity level. However, CGF **and** Agaricus combined together have been shown to achieve suppression levels of up to 90%.

We are becoming increasingly susceptible to lifestyle-related diseases as our bodies are exposed to stress, lack of exercise, unhealthy diet, as well as exposure to chemicals such as air contaminants, food additives and preservatives, and residual agricultural chemicals contained in food.

**Take Sun Chlorella Agaricus
~ The Natural Alternative to better health!**
